NORTH NATURE

Our new North Nature collection is inspired by historic camping traditions, which were all about getting out, being at one with nature and enjoying each other's company.

It's an updated take on the simple life with fabulous, comfortable tents and matching accessories, made for life in the great outdoors.

The tones of our North Nature collection are rustic and fully in keeping with the unique Nordic vibe.

The design is simple and Scandinavian, with clear references to Isabella's historic camping life.

MOMENT 300 NORTH

Moment 300 North is a modern, new interpretation of the classic tent. The asymmetric design oozes nostalgia, but it is still the best solution you will find today, providing oodles of space. What's more, an Isabella Moment 300 North can actually serve as a tent for the whole family, as there is plenty of room for everyone, sleeping six if you add annexes to both sides.

Even though Isabella Moment 300 North offers plenty of space when put up, it doesn't take up

all that much space when packed away. And as with other Isabella products, there is every opportunity to upgrade it with a Cosy Corner II, carpets or an Eclipse sun canopy, for example, and a true Isabella tent also deserves a set of Isabella furniture.

What's more, you can get extra space for storage, etc., by extending your Moment 300 North with Moment 300 North Extra Space, which zips on to the back wall.

ECLIPSE FOR MOMENT 300 NORTH

**ANNEX 250 SAND FOR
MOMENT 300 NORTH**

MOMENT 300 NORTH EXTRA SPACE

Removable/fold-down panels: The tent fronts can be rolled up.

Special details: 2 large mosquito net windows in the sides, sand-coloured roof with print on the inside, durable PVC base with Isaflex. 2 stable doors – one in the front and one in the middle of the back wall, which can be partially opened, if extra ventilation is required. Moment 300 North has a unique inflow of light and a full standing height, just like an awning.

Supplied as standard with: Cube Creme

curtain set, 2 sleeping cabins, tent bag, pole and peg bag including peg remover

Optional extras for assembly: Annex 250 Sand can be mounted on both ends, Moment 300 North Extra Space, Eclipse front sun canopy, Cosy Corner II, Isabella Carpet.

Ground: 510 x 300 cm

Total weight incl. frame: 49 kg

MOMENT 180 NORTH**

MATERIALS

CarbonX fibreglass frame with Isafix locking clamp.

Isacryl particularly breathable material 295 g/m²

COLOURS

MOMENT 180 NORTH

Moment 180 North is the smallest tent in Isabella's Moment range. Lightweight and incredibly simple, it is a two-man tent that consists of a top canopy and a bottom canopy. Moment 180 North has a large side opening that serves as the way in/out when the top canopy is up, functioning almost like a mobile shelter, which can quickly be put up and taken down again, and taking up minimal space in the car, on the motorcycle or in the boat. To protect against mosquitoes and other insects, the tent can be fully enclosed by mosquito nets, without it seeming any less open or pleasant inside. Moment 180 North has small, practical storage pockets on the end wall, where your mobile phone or torch can be stored within easy reach.

The tent is put up – and held up – by means of just three poles. To have the top canopy open, a further two poles are required. With Moment 180 North, Isabella is making a return to the tent as we used to know it. It bears all the hallmarks of Isabella DNA, with the promise of the feeling of freedom – “Feel Free”. Moment 180 North is spot on when it comes to the outdoor trend, with many people wishing to be even more at one with nature, either as simple overnight accommodation or just as a cosy place to sleep in the garden. Isabella's years of experience and high quality are incorporated in all the details and materials. A good choice if you want to discover – or rediscover – nature at close range.

Special details: Base in durable PVC. Cabin in cotton. The cabin has pockets for storage and straps for hanging lamps. Moment 180 North has two opening options – one at the foot end and a large opening in the side. Both openings have mosquito net doors. The top canopy can be lifted at the opening in the side to provide shade. This can either be done by stretching the top canopy out with guy ropes or with two poles. Moment 180 North has space for two people.

Comes as standard with: Isabella tent bag.

Ground: 180 x 240 cm

Total weight incl. frame: 18 kg.
