STEP INTO THE 2017 HOLIDAY HOME RANGE

At Swift we want your holiday to create memories that will last. Our range of holiday homes are firmly established as a market leader thanks to great design and build innovation.

For 2017 there are fifteen ranges from entry level right up to the new luxury twin unit Whistler Lodge, giving an even wider appeal. Step in to find the range that's right for you.

SHINE A LIGHT!

Considered lighting allows you to set the mood, whilst efficient LED bulbs help keep running costs down.

STEP INTO THE SWIFT DIFFERENCE

Swift has the unique advantage of being able to take the design and innovation that has made the company market leaders in touring caravans and motorhomes, and use it to create a range of holiday homes that has now become the benchmark for design, style, practicality and comfort in the holiday home market.

They are set apart by build quality with key features like Swift's unique and strong bonded 'sandwich' exterior walls, warranted Fusion chassis, class-leading thermal performance and contemporary interior design. This is all wrapped up in one of the most stylish, thermally

efficient and robust body structures on the market, combining to make Swift Holiday Homes best-sellers.

With this peace of mind you can have years of happy holidays in your Swift Holiday Home and create memories that will last a lifetime.

CONSTRUCTION AND THERMAL EFFICIENCY

Swift's design team is widely recognised as the most innovative and creative within the industry, and we are constantly looking at new and better ways to develop our products to bring you the best. We have made construction and thermal efficiency improvements for the new season and continue to offer many unique construction methods that set our products apart.

The NCC have introduced a Structural Thermal Rating Scheme for Caravan Holiday Homes built to BS EN 1647 which covers our Holiday range and gives an indication of the likely thermal efficiency of the holiday home. The ratings are based on the calculated seasonal heating load per square metre of floor area, assuming the home is not used in the colder months between the beginning of December and end of February. A score between 1 and 10 is awarded with the most thermally efficient homes gaining a high numerical score. Homes with double glazing and good insulation gain

the best ratings. When comparing scores, only homes of a similar size are comparable as the floor area affects the score.

Our Lifestyle range of Lodges is covered by the NCC Energy Efficiency Rating Scheme for Residential Park Homes built to BS 3632 and gives an indication of the likely energy consumption and Carbon Dioxide emissions of the home. Swift's Lodges are built to the new BS 3632:2015 specification which sets higher standards for thermal efficiency and through improvements in roof, wall and floor insulation, Swift surpass this standard. The improved insulation also has the benefits of better sound

insulation. The NCC rating scheme for Residential Park Homes takes into consideration the insulation qualities of the fabric of the home, the amount of energy required to heat the air passing through the home and the energy efficiency of the central heating and water heating as well as the energy consumed by the fixed lighting equipment. The rating assumes that the units will be used for twelve months of the year* and those with a rating in the green end of the scale are the most efficient. Homes with features like double glazing and gas central heating and those with lower occupancy are likely to have a higher rating.

CHASSIS

With a comprehensive 10 year anti-corrosion warranty, Swift Holiday Homes are the only manufacturer specifying the Bankside Patterson Fusion galvanised chassis as standard on all its 2017 models. It has been created using the very latest design and technology to provide stability over the life of your home, to not only protect your holiday home investment but provide peace of mind for years to come.

ROOF CONSTRUCTION

For accuracy, strength and reliability, all Swift Holiday Homes use prefabricated roof trusses. Hydraulic presses are used to press nail plates into the truss timbers to create the finished truss.

The resulting roof strength is independently tested and meets Grade B snow loading (capable of carrying half a metre of settled snow), suitable for use in the UK and most of Europe excluding Scandinavia and the Alps.

Once erected and secured in place, a minimum of 90mm glass wool insulation provides excellent thermal efficiency, followed by a breathable membrane and Thomas Panels plastisol tile effect roof sheets.

WALL CONSTRUCTION

All Swift Group Holiday Homes benefit from bonded 'sandwich' exterior wall construction for greater structural strength.

The walls are made in modules approximately 3 metres long and 2 metres high which are securely fixed together during the homes' final assembly before being clad with aluminium or CanExel.

Each model consists of a robust timber frame, battened out and filled with an insulating layer of equal thickness which is precision cut with water jets to eliminate air gaps or voids. On the outer surface is a breathable moisture membrane and on the inner, a skin of plywood covered with a decorative wall covering.

These components are bonded together in the well-proven production unit used to make similar panels for touring caravans and motorhomes. The resultant panels act as structural members to help keep the whole home more rigid as well as being straighter and resisting sideways deflection.

ENVIRONMENTAL CHAMBER TESTING

Swift tests its holiday homes in an environmental chamber to optimise the heating and ventilation levels and measure the thermal performance of the homes. Thermal imaging helps to ensure the products are fully designed and engineered to meet the requirements of a modern holiday home.

SAFETY COMES FIRST

Your safety is paramount and you can be reassured that Swift take this seriously. All their Holiday Homes are built in accordance with British and European standards EN1647 and EN1949 and are certified by the National Caravan Council (NCC).

Lodges are built to full residential specification BS 3632:2015.

Standard safety equipment includes a smoke alarm with a 10 year battery, carbon monoxide detectors in dining areas and hallways with a 5 year battery and a fire extinguisher. Showers are fitted with thermostatic mixer valves to ensure a constant temperature.

FLOOR CONSTRUCTION

In the standard Holiday Home ranges, the floor is constructed from timber joists much like a traditional home. Class-leading 50mm glass wool insulation is placed between the joists and the floor is covered with a breathable membrane. The floor surface is 18mm tongue and groove chipboard with a waterproof finish for durability.

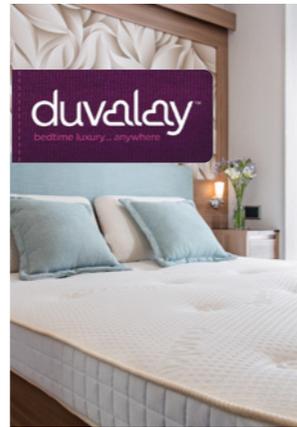

In Lodge models the thermal efficiency is enhanced with Structural Insulated Panel (SIPs) flooring consisting of a timber frame with floorboards either side which is injected with polyurethane. This gives a greater level of insulation for all year round living.

*Please note duration of occupancy is dependent on whether the park where the lodge is sited is licenced for permanent residential use or holiday use only.

WHERE THE HEAD MEETS THE HEART

Your head says you need a holiday home that's well constructed, thermally efficient and comfortable. Your heart wants great looks and features with a wide choice. With Swift you can have the best of both worlds with the backing of a company established over 50 years.

Exclusive Duvalay Mattresses

All 2017 Swift Holiday Homes feature an exclusive, quality Duvalay 'Holiday Home Collection' Bonnell/Pocket sprung mattress on all beds. Master bedroom mattresses in the Chamonix Lodge and Moselle Lodge have the added luxury of a quilted memory fibre layer. Swift have featured Duvalay mattresses in its Caravans and Motorhomes for several years and they have proved to be highly popular with customers.

Stain Resistant Carpets

All Swift Holiday Homes feature stain resistant Regency carpets. Manufactured using specially developed high-quality polypropylene fibres, the carpets feel soft and luxurious yet practical with their stain resistant properties. Due to the unique properties of the fibre, spills or stains 'sit' on the surface waiting for you to clean or simply blot away using household kitchen roll. For those really stubborn stains, you can even use household bleach without marking or ruining your carpet.

Bonded Exterior Walls

All 2017 Swift Holiday Homes are built with strong and robust bonded sandwich construction walls. Proven over many years on Swift's Caravan and Motorhome ranges and they provide a more rigid bonded and laminate structure for the exterior. There is decorative wall board on one side and the chosen exterior on the other, housed in a timber frame and bonded with high density, precision cut insulation in the middle.

Fully Galvanised Fusion Chassis

Buying your Swift Holiday Home will be one of the most significant investments you make. Swift is the only manufacturer specifying the Fusion galvanised chassis as standard on all its 2017 models. A unique product that not only protects your holiday home investment but provides peace of mind for years to come, backed up with a comprehensive 10 year anti-corrosion warranty.

Soft Close Kitchen Doors

Swift Holiday Home ranges feature soft close kitchen doors on the Bordeaux range upwards. This popular feature is found in many domestic kitchens and the benefit is a quieter and safer door/drawer close.

Electrical & USB Sockets

With the rapid adoption of smart phones and tablets, Swift ensure that USB sockets are provided in all its Holiday Homes, giving you peace of mind you can re-charge your phone or tablet whenever is needed. There are also plenty of electrical sockets in all Holiday Home ranges as we understand you may want to prepare a great meal for the family (and may need blenders and other equipment) or perhaps you simply want to bring a few gadgets with you.

Gutters and Downpipes

All Swift Holiday Homes are fitted with high-capacity gutters and downpipes that are very similar to what you would expect to find at home. Swift believe that just because you are on holiday the quality of fittings and finishes should not be reduced. This is why we believe all our Holiday Homes are a 'home from home'.

Chamber Testing

With the ever increasing cost of energy, Swift delivers excellent thermal efficiency that controls heating costs and provides outstanding comfort. As part of the ongoing development and testing of Holiday Homes, Swift tests its Holiday Homes in an environmental chamber to help optimise the heating and ventilation levels and measure the thermal performance of the homes.

Condensing Boilers

All Swift Holiday Homes that are fitted with a central heating system include a high quality energy efficient condensing boiler. This is not only good for the environment in reducing carbon emissions but the fact they are made in the UK reduces the carbon footprint further.

SwiftShield

All Swift Holiday Homes come with the option of new SwiftShield fabric for the soft furnishings. This amazing finish makes the holiday ruining stain hopefully a thing of the past. This luxurious upholstery fabric is exceptionally durable and treated to resist most household stains such as red wine, ink and chocolate and simply cleans with a dampened cloth.

Shower Toppers

Shower toppers are installed in a closed top shower cubicle in every Swift Holiday Home which helps to prevent damp from forming on the interior wallboard and decreases the risk of mould.

LED Ceiling lights

Continuing the environmental theme, Swift utilise LED ceiling lights in all ranges which not only provide a brighter light source, they are also much more energy efficient than conventional lights. In addition LED lights will provide many years of continued use without the need for replacement.

En-suite Domestic Radiator

If the central heating option is selected, all Swift Holiday Homes fitted with central heating also include an en-suite domestic radiator.

CONNECT DIRECT

Enhanced Customer Care

All Swift Holiday Homes are backed with a comprehensive warranty for full peace of mind. With the industry's most modern after sales operation covering your Swift Holiday Home including a new exclusive online customer service account, called Connect Direct, you are supported with the best possible aftercare service.

NOT YOUR AVERAGE TRIP TO THE COUNTRY

Wake up to the sounds of nature, feel the morning dew on your feet, hold a cup of tea in your hand as you experience the sunrise over the hills and the sunlight streaming through the trees.

Morning breakfast made from the fresh local produce of the farm shop down the road, a bacon sandwich has never tasted so good. The days are full of possibilities; walking in bright green fields with sheep and cows, birds soaring high on the thermals and not a care in life, just anticipation of what is round the corner. Kids can be kids, running and playing, swimming in lakes, skimming stones, riding bikes, climbing trees and paddling canoes.

It's all about remembering the smiles on everyone's faces. Live it. Experience it. Breathe it.

Adventure is allowing the unexpected to happen to you. Exploration is experiencing what you have not experienced before. How can there be any adventure, any exploration, if you let someone else - above all, a travel bureau - arrange everything before-hand?

Richard Adlington, Death of a Hero.

THERE IS NO PLACE LIKE THE COAST

S Seagulls soaring, the sound of the waves lapping at the shore, sand between your toes and the fresh sea air, it's the simple things in life that bring the most joy.

Bucket and spade in hand, building sand castles, collecting shells and soaking up the sun on the beach with an ice cream or candy floss; it's what the seaside is all about.

With coastal parks a stones throw away from seaside adventures you can enjoy a prime holiday location with all the comforts of home. Imagine the kids playing happily with new friends while you relax nearby and even the dog can come too.

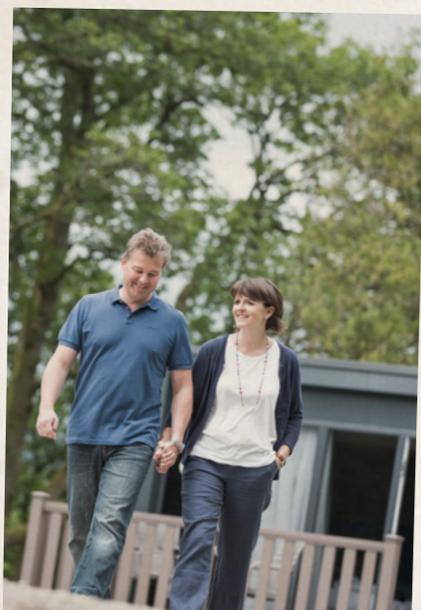

As the end of the day draws to a close, you get to relax in the comfort of your own home from home, head refreshed from the days activities and ready for tomorrow's adventure.

Owning a Swift Holiday Home means you have the freedom to holiday on your timetable, at your pace in comfort and style. You can be spontaneous or carefully plan your break away to create precious memories and tales to treasure for a lifetime.

The ocean stirs the heart, inspires the imagination and brings eternal joy to the soul.

STEP INTO THE LIFESTYLE RANGE

In recent years Swift has become a leading manufacturer in the holiday home market, through building innovative, desirable and well-designed holiday homes that set the standard in quality, specification and value for money.

This ethos was taken into the residential lodge market in 2013 and Swift now offers four lodge ranges including the all new twin unit Whistler Lodge. All models are built to the new specification (BS3632:2015) for residential living

that was introduced in 2016. The regulations set a higher standard for thermal efficiency and through improvements in roof, wall and floor insulation, Swift surpass the standard.

With stylish exteriors and contemporary interiors there's a range to suit your needs, whether you're looking to go for relaxing weekend breaks or require all year round luxury living in a destination of your choice.

Moselle Lodge

Chamonix Lodge

- 13 **WHISTLER LODGE**
The all new twin unit Whistler Lodge offers exceptionally spacious living
- 19 **CHAMONIX LODGE**
The distinctive Chamonix Lodge has uplifting new 'Sherlock' soft furnishings
- 25 **ALSACE LODGE**
The Alsace Lodge is an exciting new range that captures modern day design
- 31 **MOSELLE LODGE**
The popular Moselle Lodge brings residential living to an affordable price bracket

STEP INTO THE WHISTLER LODGE

The all new twin unit Whistler Lodge offers exceptionally spacious living with a high quality, luxury feel and Swift's renowned contemporary styling. At 20ft wide with an 8ft/12ft split the generous living space has an open plan kitchen, dining and living area plus two spacious bedrooms. There's even a utility room.

**COOKE
& LEWIS**

Designer kitchen

The Whistler Lodge features a high quality Cooke & Lewis 'Raffello' kitchen. Cooke & Lewis pride themselves on designing beautiful kitchens of unquestionable quality. They combine carefully specified materials, appliances and accessories to deliver beautifully designed and expertly constructed kitchens that stand the test of time.

STEP INTO THE WHISTLER LODGE

FEATURES

Exterior

- Residential specification enhanced to BS3632:2015
- Twin unit with 8ft and 12ft split
- Strong I Beam twin-axle chassis with galvanised finish warranted for 10 years
- Bonded 'sandwich' exterior wall construction for greater strength
- Coated steel pantile roof
- CanExel high density wood composite cladding with durable realistic wood grain texture in Cliffside with anthracite glazing
- Bi-fold doors to both sides
- Fixed full height window to front offside
- uPVC windows with push-button security locks
- PVC gutters and down pipes
- Low energy exterior light and downlights under front eaves

Insulation

- Excellent thermal performance and sound insulation:
 - 'Thermaglas' uPVC double glazed windows and doors with improved thermal rating
 - Composite SIPs (Structural Insulated Panel) floor
 - 200mm insulation in roof
 - 95mm insulation in walls
- Lagged underfloor pipes

Interior

- 'Hampton' soft furnishing scheme
- 30kW gas combi-boiler central heating and hot water system
- Wireless programmable room thermostat
- Radiator thermostats
- Luxury carpet with underlay throughout
- Laminate effect vinyl flooring in kitchen/bathroom(s)
- Modern planked ceiling system gives a smoother finish with only one central seam
- Ceiling height 7ft (2.13m)
- Low energy LED ceiling lights throughout
- Tisano oak woodgrain
- USB double socket
- Greater provision of double electric sockets throughout

Lounge

- Free-standing 2-3 seater sofas, fold out occasional bed and scatter cushions
- Feature glass top coffee table
- Feature wall with contemporary Opti-myst® feature flame fire (no heat) and high level TV position
- Sony® 40" TV over fireplace and Sky+ connection with HDMI cable
- Bose® sound system
- Contemporary shelving style feature wall divide near entrance door
- Full height feature radiator
- Wall mirror

Kitchen / Dining

- Modern Cooke and Lewis 'Raffello' full gloss kitchen with handleless doors
- Island unit/breakfast bar with 2 stools
- Glass fronted oven and grill with electronic ignition
- CDA lift up extractor fan
- 5-burner gas hob with central 'Wok' burner, electronic ignition
- 'A+' rated double door integrated fridge and freezer
- Integrated microwave oven with digital controls
- Wine cooler
- 'A+' rated integrated 12 place setting dishwasher
- 1½ stainless steel sink/drainer
- 40mm laminate work tops with matching upstands
- Soft close drawers
- Under cupboard worktop and plinth feature lighting
- Glass topped dining table with four chairs
- Dinette feature wall

Utility Room

- Cupboard housing boiler
- Sink unit
- Freestanding washer dryer

Bathroom(s)

- Shower cubicle with thermostatic shower in main bathroom
- Walk-in shower enclosure with feature wall panel and bath in en-suite
- Stone effect vanity splash backs
- LED illuminated vanity mirrors with infrared sensor and demisting pad
- Dual flush WC with new soft close toilet seat (concealed cistern in main shower room)

- Chrome finish towel radiators
- Extractor fan in main bathroom and en-suite

Bedrooms

- King-sized double bed in main bedroom with lift up storage, improved quality mattress and illuminated feature panel above bed
- Duvalay mattress to all beds
- Padded headboard(s)
- Decorative wall panels in master bedroom
- LED reading lights
- Provision for 32" flat screen TV in master bedroom and 15" flat screen TV positions in other bedrooms with 230V and co-ax sockets
- Ample storage with bedside cabinets and over bed cupboards
- Sliding glass robe doors to master bedroom
- Vanity area with mirror and socket behind robe doors in master bedroom
- LED lights in robe and pelmets in master bedroom
- LED lit mirror in master bedroom

Options

- Mist Grey CanExel cladding with anthracite glazing
- Acadia Green CanExel cladding with anthracite glazing
- Sliding door to master bedroom
- 'SwiftShield' stain resistant fabric
- Shaving socket in bathroom

STEP INTO THE HOLIDAY RANGE

With over a decades' experience in the holiday home market Swift are now firmly established as one of the leading manufacturers. This experience is evident in the breadth and refinement of the Holiday Home range for the 2017 season.

The range has grown from strength to strength each year and now offer a wide choice of contemporary models from entry to mid level ranges, right up to the luxury Chamonix.

Exciting developments include the innovative S-Pod range, which has a multitude of uses.

For the new season, there are new ranges, new interior design schemes and external detailing along with improved layouts and thermal efficiency.

Swift listen to customer feedback and are constantly developing the ranges to bring you the best holiday experience.

SITING MADE EASY

Swift Group has teamed up with Swift Foundations to provide 3 optional kits to make the siting of your S-Pod quick and easy.

Foundations Kit

4 x Swift Plinth Plus modified specifically for the S-Pod. Swift Plinth Plus provides a cost saving and strong alternative to traditional concrete foundations. Swift Plinth can take loads from 1 tonne to 2.5 tonnes per plinth making it ideal for the S-Pod. It has the advantages of being quick and easy to install, with adjustable levelling and provides excellent air flow to the base of the structure.

Landscaping Kit

Pea gravel and retaining grids

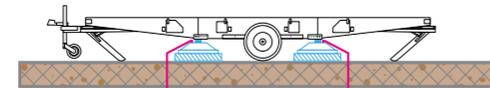

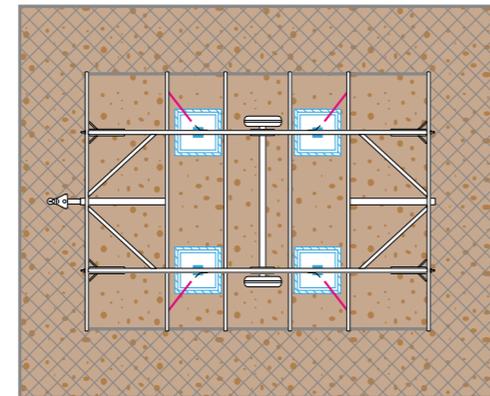

The Landscaping Kit allows you to dress the site where your S-Pod is installed making it ready for immediate use. Recycled ground reinforcement grids click together to form a rectangular frame around the perimeter of the pitch, demarking the pitch from the surrounding land. Pea gravel is then brushed into the grids, and under the chassis of the S-Pod, providing good drainage and reducing rainwater splashback onto the underside of the S-Pod.

Anchoring Kit

4 x ground anchors, cables and connectors

The Anchoring Kit allows you to anchor your S-Pod into the ground to resist movement by sudden gusts of wind. Four anchors are driven into the ground immediately below the S-Pod using a special drive tool before strong wire rope is used to connect the anchors to four designated points on the underside of the S-Pod chassis.

EXCLUSIVE TO SWIFT

All Swift Holiday Homes are available with the exclusive option of 'SwiftShield' fabric.

'SwiftShield' fabric has a soft suede type feel and has been cleverly treated during manufacturing to resist stains. It is very easy to clean and just requires a soft cloth dampened with water to remove most stains. You can find out more on Swift TV. www.swifttv.co.uk
